PRINTED HANDLE BAG

02 PP Woven Sacks

Our water and moisture proof polypropylene sacks are ideal for packing food grains, spices and fertilizers. They offer ample breathing space for packed grains and are available in a host of fascinating colors, designs and sizes.

Its Salient features are as follows:

- Light weight, easy & cheap to transport
- Bright 2/3/4 color printing offers aggressive marketing prospects
- Can be gusseted to further improve stacking
- Can be coated OR uncoated
- High tensile strength and durability
- Cost effective
- No seepages, especially in poly lined or laminated bags

03 PP Woven fabric & Clear sheets

Our PP wrapping fabric and clear sheets are in sync with international standards and are known for their excellent durability standard amongst our clients. They can be customised in length, weight, gusset, meshes and colors to suit the demands of our clients.

Its Salient Features are as follows:

- Long lasting
- Resistant to heat
- Improved stiffness
- Eco-friendly

04 PP Woven Bale Wrap

We are one of the best providers of Bale Wrap in various Sizes and Grammage. Our wrap has following unique characteristics.

- Contamination control
- Width control
- Flat surface winding
- Winding consistency
- Splice control on each roll
- Quality Fabric
- Good Lamination

05 BOPP Laminated PP Woven Sack

- Lesser weight than traditional paper bags
- Consumes less space
- Strong, puncture & tear resistant
- Moisture proof
- 100% recyclable
- High Gloss & Matte Finishes available
- Resistant to oil and grease
- UV inhibitor
- Made from 100% Vertically Integrated Manufacturing

06 PP Block Bottom Bags

We offer PP woven sacks produced without adhesives, by heat-welding of the coating on the fabric. They combine the following advantages of the traditional sack types i.e. Paper, PE and PP to give a world class product:

The salient feature of these sacks are:

- Strong sacks having almost zero burstage
- Resistant to humid conditions
- Valve for easy filling
- Eco-friendly
- Economical
- Recyclable and reusable
- Excellent non-fading printing, enhancing the packaging look
- Cannot be tampered as is hermetically sealed
- Can withstand rough and multiple handling. Ideal for export where multiple handling occurs to and from load port to discharging port and final destination

07 Container Liner

We provide container liners, especially designed for dry product exporters. The most common sizes are for standard 20 feet and 40 feet export containers.

08 Woven Geotextiles

Geotextiles offered by Top Line are high strength polypropylene woven fabric produced from high tenacity tapes. They are specially designed to be used as a construction material and must have the following functions: separation, filtration, reinforcement, protection and drainage. They find application in construction of roads, dams, erosion control and other similar activities.

09 Woven Ground Covers

We offer PP Woven Ground Covers which provides a perfect solution for controlling weed growth. It prevents the weeds to grow and yet let water and nutrients pass through. The fabric is UV stabilized and lasts even in direct sunlight.

10 Silt Fence

We provide Silt fence manufactured from polypropylene UV resistant tapes. Silt fences are perimeter controls, typically used in combination with (properly designed) sediment basins and sediment traps, as well as erosion controls, which are designed to retain sediment in place where soil is being disturbed by construction processes. A silt fence is a temporary sediment control device used on construction sites to protect water quality in nearby streams, rivers, lakes and bays.

OUR IDEOLOGY

We are not mere agents, but your partner in selecting the right FIBC bag for your business. Our all-inclusive products portfolio, coupled with our expertise in the segment make us a holistic destination for 360° FIBC bag solutions.

Insights Generation

Through analysis of clients' needs

Reliable Sourcing

From top manufacturers

Value Orientation

With best-in-the-market costs

Logical Logistics

To get you the right bag at the right time

ASSURANCE OF QUALITY

At Top Line, Quality is not just a statement, it is our fundamental way of business. Nothing from our premises leaves without being tested for global standards compliance. Furthermore, we have partnered with elite manufacturers of FIBC, who themselves adhere to world-class quality standards.

We also monitor global trends, and work closely with our manufacturing associates to produce bags that are concurrent with market trends.
